While in Mississippi Mrs. Warren shot two blacksnakes four feet long, and Mr. Warren shot a cock whip snake six and one-half feet long. Game was not very plentiful, except quail. Mr. Warren shot a wild gobbler and knocked him down, but he got away.—Sioux City Journal.

While digging fish worms near here, James Mickless, aged 15 years, heard a queer noise coming from the trunk of the Southern Indiana railroad, by the side of which he was engaged, and looking up he saw a bunch of snakes rolling toward him down the bank. He broke and ran, calling for help, when some parties near by went to his aid, and on searching found five large snakes in the grass, which they killed. After the killing they were measured, and the five measured 188 inches.—Louisville Post.
